Objective

Aspiring developer with foundational skills in Front-end technology and basic C programming, seeking to apply technical knowledge to real-world projects. Passionate about learning and growing within a dynamic environment.

Skills

Web Development: HTML5, CSS3, Basic JavaScript, Bootstrap.

Programming Languages: C (basic syntax, loops, functions, arrays)

Tools: Visual Studio Code

Projects

1. Unit Converter Application

Technologies: HTML, CSS, JavaScript

Designed and built a responsive web app that converts units (length, weight, temperature). Implemented dynamic selection options and real-time conversion with JavaScript.

2. Text-to-Speech Converter

Technologies: HTML, CSS, JavaScript

Created a web application that converts user input text into spoken words. Integrated Web Speech API to perform speech synthesis with different voice options.

3. Calculator

Technologies: HTML, CSS, JavaScript

Developed a basic calculator supporting addition, subtraction, multiplication, and division. Applied event listeners and input validation for accurate operations.

4. Landing Page

Technologies: HTML, CSS

A sweet-themed homepage design for bakery shop customers to review products.

Education

Maharishi Markandeshwar (Deemed to be University), Mullana, Ambala, Haryana, India

Bachelor of Technology (CSE) — 2023 to 2027

Blue Bells School, Naraingarh, Ambala, Haryana (CBSE)

12TH (2022-23) & 10TH (2020-21)
